# **Infinix**

# NOTE 40 Pro+ 55

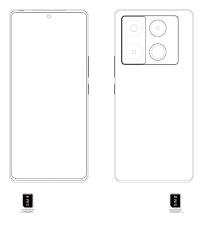

# **Know your phone**

- 1. Front camera
- 2. Volume + button
- 3. Volume button
- 4. Power button
- 5. NFC & Wireless charging

## SIM card installation

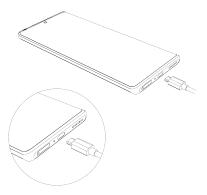

- 1. Power off your phone.
- 2. Refer to the following picture for SIM card installation.

## Charging the phone

You can charge your phone with a charger or by connecting it to a computer using a USB cable (comes with the phone).

- 1. Use Infinix chargers and cables only. Other chargers or cables may damage the phone and invalidate its warranty.
- 2. Do not expose your phone to extreme temperatures lower than  $0^{\circ}$ C or higher than  $45^{\circ}$ C.
- The physicochemical processes created by chargers impose temperature limits when charging the battery. Your phone automatically protects the batteries in extreme temperatures.
- 4. Stop charging when the battery temperature is higher than 55°C, and restore charging when below 50°C.

## SAR

### SAR value:

Body parts		Test value
Head		0.868W/Kg 1g
Во	dy	1.250W/Kg 1g

### Safety precautions:

- a) Use a wireless hands-free system (headphone, headset) with a low power Bluetooth emitter.
- b) Make sure the phone has a low SAR.
- c) Keep your calls short or send a text message (SMS) instead. This advice applies especially to children, adolescents and pregnant women. d) Use the phone when the signal quality is good.
- d) Use the phone when the signal quality is good. e) People having active medical implants should preferably keep the phone at least 15 cm away from the implant.
- \* This device supports cell broadcast service.

## **RoHS**

We at Infinix take our social responsibility seriously and are committed to the cause of saving our environment. It is in keeping with these commitments that we are proud to state that Infinix phones are RoHS compliant.

## E-waste, recycle your phone

The WEEE logo (shown at the left) appears on the product (battery, handset, and charger) to indicate that this product must not be disposed of or dumped with your other household wastes. You are liable to dispose of all your e-waste by relocating over to the

specified collection point for recycling of such hazardous waste.

Collection and proper recovery of your e-waste at the time of disposal will allow us to help preserve the environment. Recycling of e-waste will ensure safety of human health and environment.

# INFORMATION UNDER E-WASTE (MANAGEMENT AND HANDLING) RULES, 2016

For more information about e-waste, please visit us at www.infinixmobiles.in

For any assistance/guidance for disposal of e-waste, please call on toll free numbers:

1800-3000-8198 / 1800-102-5018

#### Do's for disposal of product

 a) Always drop your used electronic products, batteries, and packaging materials after the end of their life in the nearest collection point or collection center.

 b) Separate the packaging material and sort for recycling according to responsible waste disposal options.  c) The battery can easily be removed from the product for recycling.

#### 2. Don'ts for disposal of product

- a) Never dump e-waste in garbage bins or municipal solid waste stream.
- b) Do not dispose of your product as unsorted municipal waste.
- c) Do not throw used batteries into household waste.
- d) Do not dispose of damaged or leaking lithium-ion (Li-ion) batteries with normal household waste.

# 3. Information on the consequences of improper handling, accidental breakage and improper recycling of end-of-life products a) Improper disposal of batteries may cause harm to

human health or environment.
b) Placing batteries or devices on or in heating devices, such as microwave ovens, stoves, or radiators and

improper disposal of batteries may lead to explosion. c) If the battery terminals are in contact with metal objects, a fire may be caused.

## **Battery recommendations**

- Please put the battery in a well-ventilated place out of direct sunlight. Charge the battery at room temperature range.
- If the time span of the battery after charging becomes much shorter than usual, the battery life is at an end. Replace the battery with a new battery of the same make and specification.
- Do not discard the battery with household trash. Please ensure you dispose of used batteries according to your local environmental laws and quidelines.
- Use manufacturer-approved batteries, chargers, accessories and supplies. We will not be responsible for user's safety when unapproved batteries or accessories are used.

## **Disclaimers**

- The colors and specifications shown/mentioned in the user manual may differ from the actual product. Images shown are for representation purpose only. Other product logos and company names mentioned herein may be trademarks or trade names of their respective owners.
- The content of this manual may vary from the actual content displayed in the mobile phone. In such a case, the later shall govern.
- We reserve the right to make modifications to any of the content in this manual without public announcement or prior notification.
- For devices with external power supplies, the plug socket should be placed in short distance and easily accessible.
- Using the wrong type of battery for replacement may lead to explosion. Please follow the instructions for disposal of used batteries.

## Copyrights

All rights reserved. Reproduction, transfer, distribution or storage of part or all of the contents in this document in any form without the prior written permission is strictly prohibited.

#### WARNING:

To prevent possible hearing damage, do not listen at high volume levels for long periods.

Use the device only with the earphones included. Never change the earphones included for another one.
